## MASSACRES

### And Great Destruction in Disturbed Districts.

### A Reign of Terror Now Exists in Adrianople.

### Heads of Balkan Merchants Exhibited on Poles by The Sultan's Troops--The Turks Slay Women and Children--Acts of Cruelty.

Vienna Aug. 25—Dispatches from the Balkans this morning tend to confirm the reports of massacres and destruction in the disturbed districts. One dispatch has it that the reports of disturbances in Adrianople are but mild when compared with the real state of affairs there. A reign of terror exists in the city. The insurgents have killed the town have killed right and left, shooting many inoffensive persons in the streets. The insurgents also tried to blow up the fort, but were driven off by the Turkish troops who are now being brought to the town in large numbers. The Turks have spread a report that they expect an order to invade southern Bulgaria but this is not confirmed. Severe fighting is reported at Babuk, Silvara and Teklye, in which both Turks and insurgents lost heavily. The Turks, however, are not so victorious as most reports would indicate. The insurgents are more than holding their own in many places and their ranks are stated to be constantly increasing by volunteers.

squadron to Kavak. Admiral Kruger refused gifts of food, cigarettes, etc. from the Sultan."

**AID FROM RUSSIA.**  
Constantinople, Aug. 25—Turkish officials state the porte has irrefutable evidence that the Macedonian trouble is being engineered by Pan-Slavist societies at St. Petersburg and Moscow. These societies are reported to have sent seven million roubles to Macedonian committee for use in the uprising. The head of the Pan-Slavists is Count Ignatieff.  
The Turks state that this aid from Russia accounts for the animosity towards the Russian consul Rostkowski who was in favor of the insurgents. (Continued on Page 6, 1st col.)

## NEW POPE

**Favors a New American Cardinal, but Objections Are Filed Against Ireland.**

Rome, Aug. 25—When it became known that Pope Pius favored the creation of a new American cardinal, many strong objections were addressed to him against Archbishop Ireland, both from Italy and America. Archbishop Ryan, of Philadelphia, has been warmly recommended for the honor and he now seems the favorite of the Vatican.

## Wright Hearing.

London, Aug. 25—The hearing of Whittaker Wright, charged with sharp practices in connection with the conduct of the defunct London and Globe corporation, was resumed this morning. One of the first witnesses called today was a clerk to the stock jobbers who petitioned the winding up of Wright's companies. While the clerk was testifying Wright manifested considerable nervousness.

## THE MAN WHO MAY BE OPPONENT TO MARK HANNA

John H. Clarke Says He is Willing to Receive That Indorsement.

Was a Gold Democrat, but He Supported Wm. J. Bryan in 1900.

(Advocate Special.)  
Cleveland, O., Aug. 25—John H. Clarke, of the law firm of Cushing &

senator at the hands of the Democratic state convention.

Clarke has been indorsed by several county conventions and Mayor Johnson has decided to throw all his strength to the Cleveland man. If Mayor Johnson controls the state convention Clarke will be indorsed for the senate—barring political accident.

In the Democratic legislative caucus when Chas. Baker, of Cincinnati was selected as the opponent of Senator Foraker in 1901-2, Mayor Tom's Cuyahoga county delegation voted for Clarke and several Democrats from other counties stood with them.

Clarke came to Cleveland from Youngstown several years ago and gained prominence at the bar. He was a sound money Democrat, but nevertheless supported Bryan in 1900. Notwithstanding several clashes between Mayor Tom and Clarke over railway taxation, the two have been close friends and Clarke assisted Mayor Tom in stumping the state last fall.

Mr. Clarke states that he will accept the indorsement if tendered. "I am not making any fight," he said, "but if the indorsement comes unsolicited I will accept it and do all I can for the success of the ticket, both state and legislative."

Mr. Clarke is an orator of note and is a newspaper owner as well as an attorney.

If Mayor Johnson has his way Cleveland will furnish the state with two candidates for governor and two for senator.

Clarke, is Mayor Johnson's candidate for the indorsement for United States

## CHILD

### IS ARRESTED IN KENTUCKY FOR SELLING WHISKEY.

Nine Year Old Boy Has Been in Jail for a Month—Trial Comes Up Next Month.

Frankfort, Ky., Aug. 25—Alfred Davidson, the Rockcastle county boy, who was brought here by Deputy Marshal Thompson and lodged in jail charged with the unlawful selling of whiskey, says he is only 9 years old, and his size and appearance indicate that he is telling the truth, though the marshal said he was 13. When seen in jail the little fellow talked freely about his arrest, but was anxious to go back to his mother and father. He says he has been in jail in London for a month, and that his parents visited him there frequently.

"Did you sell the whiskey for your father?" was asked him.

"No, sir; I sold it for some other men, and they gave me 10 cents and sometimes 15 cents for every quart I sold," he said in a frank, child-like way.

"Did you know it was wrong to sell whiskey that way?"

"No, sir; I didn't know nothing about it, except that I was making some nickels and dimes."

"Have you any brothers and sisters?"

"No, sir; but I got an uncle, and he is in the penitentiary. He came from Breathitt," was the response.

It is believed by those familiar with such practices in the moonshine districts that the boy was induced to sell the whiskey as part of a plan which is frequently worked, to inform on him and then have a lot of witnesses summoned whose mileage and per diem are paid by the government. The boy's extreme youth will, of course, prevent his conviction, even if the testimony against him is positive, and the witnesses will go back home richer by several dollars because of the scheme they worked. His trial will come up next month.

The only states which have capitols in large cities are Massachusetts, Indiana, Virginia, Minnesota, Georgia and Colorado.

### Lost Their Lives In Fire

### Many Killed in Leaping to Life Nets

TWO HUNDRED PEOPLE WERE HEMMED IN.

SEVERAL WERE FATALLY HURT.

Blaze in a Four Story Tenement in the Upper Stories of Which 200 People Lived.

Budapest, Aug. 25—Between forty, and fifty persons, including Madame Goldberger, lost their lives in the holocaust at the Goldberger company's warehouse last night. Thirty others were terribly injured, while trying to rescue them. The fire was one of the worst that has visited Budapest in its history, and wonder is expressed this morning that more did not perish in the flames. The financial loss is one million.

Budapest, Hungary, Aug. 25—In a fire in a 4-story building, in the two upper stories of which lived 200 working people, 50 persons lost their lives last evening. A score or more were seriously injured, and of these 10 will die.

The two first floors were occupied as a fancy goods store and once the blaze started, it spread quickly.

Only those persons near the doors were able to escape.

The residents above, seeing their great danger, clung desperately to windows, waiting in vain for rescue.

One by one they dropped to the pavement below.

Firemen held sheets, into which the frightened people were told to leap. Fifteen were saved in this way.

Thirteen missed the improvised ladders altogether and were killed on the spot, while 10 were injured, 10 fatally.

## ACTRESS

### DRAWN INTO A DIVORCE SUIT TO TAKE ADVANTAGE

Of an Odd Law—Charges Against the Co-respondent Will be Heard First.

(Advocate Special.)  
New York, Aug. 25—An odd feature of a divorce suit soon to be heard here will be a trial of the charges against

the co-respondent before the divorce issues are tested. Nina Farrington, the actress, who is Mrs. N. K. Ferris, was named in the case. Under a new law she has the right to clear her name before anything else is done in the case. She indignantly denies the charges made against her, and will take full advantage of the privilege given her by the law.

The divorce suit was brought against Hugo R. Johnstone by his wife, who is a daughter of Samuel W. Allerton, a Chicago millionaire. She charges that her husband was a frequent visitor at Miss Farrington's town residence. This is denied and a jury will be called to determine the facts.

The Johnstone wedding took place in this city in 1898, and the couple have two children. They are living with Mrs. Johnstone. She asks, in addition to the divorce, that they be given into her custody.

The reason that a woman won't is just because.

## TOMORROW

### Will Decide Winners For Nomination.

### Zimmerman Opposes Indorsement of Man For Senator

### While Mayor Johnson Insists Upon Indorsement of Mr. Clark--John J. Lentz's Boom Started-- Situation Before the Convention.

Columbus, Aug. 25—Mayor Tom L. Johnson still has an important lead in gubernatorial contest though there is a serious split in his own ranks today over the endorsement of John H. Clarke, of Cleveland, for Senator. The Zimmerman followers declare that their candidate still has enough votes to win in the state Democratic convention tomorrow.

Friends of John J. Lentz have taken advantage of opposition of John H. Clarke, for senator, and have started a boom for his endorsement for senator by tomorrow's Democratic state convention.

Columbus, O., Aug. 25—Mr. Zimmerman is out with an emphatic statement today that he does not favor the

endorsement of any candidate for United States Senator by the state convention and that he considers such a step unwise and will use every effort to prevent it.

Columbus, Aug. 25—Johnson sentiment so far gives no evidence of cooling and baring an unexpected upheaval, it will be Mayor Johnson in a walk. There is a grave question however, whether he will be able to parry, Clarke with him. Telegrams were sent W. J. Bryan this morning asking that he send an endorsement of Clarke, but as yet nothing has been heard from the Nebraskan. Mr. Clark is expected to reach Columbus with Mayor Johnson this afternoon. Then the struggle will begin in earnest.

## BECAUSE

He Thought His Wife Would Survive Him and Be Penniless He Killed Her.

Pittsburg, Pa., Aug. 25—Because he was afraid his wife at 6 months would survive him and be left without means of support, Dominic Verchilla, an Italian of Wall's Station, last night shot and instantly killed his wife, Ferna. He then stabbed himself seven times, three times in the right side, three times in the left side and once in the throat. This morning he was still alive at the McKeesport hospital, but there is no hope of his recovery.

## BREAKFAST

Ordered by Senator Bacon, But He Paced the Floor While Booker Washington Ate.

Atlanta, Ga., Aug. 25—United States Senator A. O. Bacon and a party of prominent Atlanta people went without breakfast at Hamlet, N. C., while Booker Washington and a number of negroes feasted in the dining room at the depot. The main dining room

was given over entirely to the negro delegation, while a small table in the side reading room was cleared for Senator Bacon and friends. Under the circumstances Senator Bacon and the Atlanta people refused to eat.

Hamlet is the regular station where Seaboard Air Line trains stop for meals. Senator Bacon and friends who were en route to Wilmington, had ordered meals in advance. When the dining room was reached they went to the dining room, and were greatly astonished to find it occupied by Washington and his friends.

During the meal many negroes of Hamlet gathered at the windows of the dining room and delightedly watched Washington and party eat.

Meanwhile Senator Bacon and friends were pacing the platform and doing a lot of thinking.

## MAYOR TOM L. JOHNSON

### Declares That He Will Not be a Candidate for Governor Unless the Convention Indorses Candidate For U. S. Senator.

Cleveland, O., Aug. 25—Mayor Johnson stated positively that unless the state convention accedes to his wishes by indorsing some candidate for United States Senator he will decline to accept the nomination for Governor.

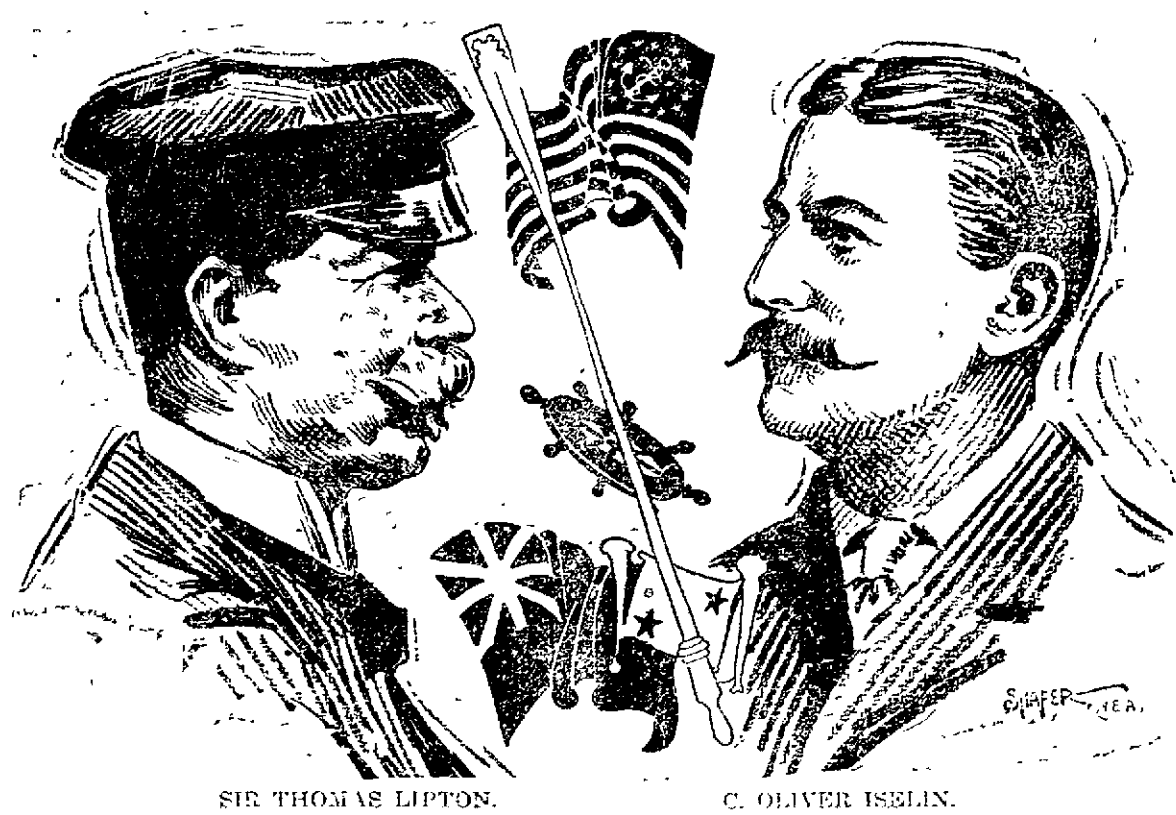

Mr. Johnson explained that the withdrawal of John W. Bookwalter from consideration as a senatorial candidate might possibly bring about the desire upon the part of the delegates to the state convention to leave the senatorial fight open and to transact their business without indorsing any particular candidate. Mayor Johnson declared without reservation that if such a condition should arise he would under no circumstances accept the nomination for governor. At the same time Mr. Johnson expressed himself as strongly in favor of the candidacy of John H. Clarke.

The only consequence I can see from the withdrawal of Mr. Bookwalter is the possibility that the delegates may now endeavor to go through the convention without indorsing any senatorial candidate," said Mr. Johnson.

"I am strongly in favor of the indorsement of John H. Clarke for senator. I have been in favor of Mr. Clarke from the first and shall do all in my power to induce the convention to indorse for him. He is, I think, eminently qualified to fill the position of United States Senator.

"I do not believe that the withdrawal of Mr. Bookwalter will have any effect upon the relative standing of Mr. Zimmerman and myself in the convention. I think that our strength will be just the same as it was before Mr. Bookwalter reached his decision."

## RELiance WINS AGAIN THIS AFTERNOON FROM SHAMROCK III

### THEY REPRESENT THEIR NATIONS IN THE STRUGGLE FOR THE CUP

Highlands off Navesink N. J. Aug. 25—The second race for the American cup between Sir Thomas Lipton's challenger, Shamrock III and the defender, Reliance, promised today to be a contest in moderate airs and one calculated to show the Britisher at her best.

The race today will be held over a triangular course, ten miles to a leg, giving the yachts a turn to windward and two reaches. A whole east gale-knot breeze came romping in from the south by east this morning and there was a fair tumble to the sea. The breeze held true and strong and there was no "soft spots" anywhere on the water.

Sir Thomas Lipton has voiced the opinion that his challenger Shamrock III would show her best form in a mild wind and a rolling sea and with these conditions she could defeat the Reliance. Fortune has favored the Irish knight this morning for the weather

and water conditions seemed just suited to Shamrock III.

"I could desire nothing better," Sir Thomas, this morning, as he cast his weather eye over the horizon, "and if Shamrock III is as good as today I shall be very much disappointed. Shamrock should be at her best today."

Highlands, N. J., Aug. 25—The Reliance arrived at the light ship at 10:08 under her own sails, 50 tons sail and 100 men. Shamrock III arrived 10:12 and was covered by a cutter. The wind was light and the water was smooth.

At 10:28 a.m.—The navigator hoisted the signal "T" indicating a triangular course for today.

At 10:45 a.m.—In preparatory gun fired.

At 11:00 a.m.—The starting gun was fired and the Reliance and Shamrock III were off. Shamrock III led 11:02 1/2 minutes. Shamrock III topped 19 seconds.

### "STUMPED"

By His Big Fortune Indiana Laborer Couldn't Say What He Would do With It.

Elkhart, Ind., Aug. 25—After more than a half century of hard work as a common laborer Moses H. Barron, of this city, today received word that he is heir to \$1,500,000 estate left by a maiden aunt, Miss Fidelity Barron, who died in New York three years ago.

For 22 years prior to his aunt's death he had called himself Scott, which was the name of his maternal grandfather, having adopted it to gratify a whim of his grandfather because there were no male Scotts in the family. Barron is employed at present at the Elkhart Bridge Works in an amiable position.

The estate consists of rural and urban lands in various parts of New York State, with the bulk in Jefferson county. The property was acquired by the aunt herself, who was very close in her dealings, and exercised good judgment in investing her hoarding, the land purchased by her growing rapidly in value. When asked what he expected to do with the money Mr. Barron was "stumped."

### POWERS TRIAL

Lexington, Ky., Aug. 25—The entire city police force was engaged last night in searching for Wesley Whitaker, a witness for the commonwealth in the Caleb Powers case at Georgetown. Whitaker was to have been introduced in rebuttal testimony today. He mysteriously disappeared from Georgetown late Monday evening. As soon as his absence was discovered W. H. Culton, Wharton Golden, Ike Golden and Frank Cecil, all witnesses for the commonwealth, were hurried to this city and notified the detective force. If Whitaker came here he is keeping his presence secret, as the officers were unable to find him.

Georgetown, Ky., Aug. 25—Geo. S. Page of Monroe county was the first witness of the day in the Powers case. He took part in the agricultural building meeting at which it was arranged to get up the Mountain army crew of January 2, 1900.

On direct examination Page said the men were to be brought to petition the legislature and that he brought 25 men from Monroe county. On cross examination Page could not recollect anything that was said at the meeting and said that he was there only 30 minutes.

### WONDERFUL

Feat of Lou Dillon May be Bettered at the Memphis Meet Says Frank Jones.

Memphis, Tenn., Aug. 25—Frank G. Jones, president of the Memphis Driving Association, commenting on the wonderful feat of Lou Dillon, said: "Now that the two minute trotter is here, we can look forward to miles under that mark. Lou Dillon will not start again until the Memphis meeting, when she will attempt to clip something off the fast time made at Readville. The track here is faster by 1-2 to 2 seconds than any trotting course in the world and I would not be surprised to see Lou Dillon clip a full second off her present record bringing the figures to 1:59."

### Cleveland Wants Lefty Snyder.

This morning's Ohio State Journal contains the following about "Lefty" Snyder, the crack twirler of the Idlewild team:

"Lefty" Snyder, the crack southpaw, to whom Columbus is home, has been asked to join the Cleveland American league team.

"Snyder is hesitating and is having trouble to make up his mind about reporting to Bill Armour. Of course, he is ambitious and longs to get up as high as possible in the baseball world. Still he does not feel sure that he is seasoned enough to take a chance in the company in which Cleveland pitchers must travel.

Yesterday Charles Somers of the Cleveland team sent transportation to Snyder through Manager Frank Kramer of the Interurbans. Along with the ticket came a note assuring Snyder that he would get a good chance to show his ability.

Snyder started out the season with the Interurbans and pitched good ball. It was so good that berth on the Idlewild team was given him and he has made a hit there."

### GOES TO HARTFORD.

John McEwen, Harry Stinson's three year old pacer, is being specially prepared to break into the grand circuit at Hartford, where horsemen believe he is due to beat the best three year old pacers of the year. He has done everything that has been asked of him and a little more. Several days ago he turned the Glenville track in 2:10 1-2, after going to the quarter pole slowly. He is out of the same mare as Mary Gage, W. B. Chisholm's great filly that showed so much speed at Brighton this week.

Mary Gage will start in the futurity at Hartford and Stinson, who bred both McEwen and the filly, believes he will be able to say that he raised two Hartford winners.

### HER NAME

WRITTEN ON \$5 BILL LEADS TO PECULIAR AFFECTION

Of Two Young Women, One of Whom From Ohio, is Visiting New Found Friend in New York.

Binghamton, N. Y., Aug. 25—A most peculiar romance, without a man for a hero, has culminated here in the meeting of Miss Edna C. Lindsey, of Dayton, O., and Miss Clara Colby, of 350 Main street, Oswego, N. Y. Both are society women, Miss Colby being a wealthy society leader. Last September she placed her initials and last name on a crisp new five dollar note in a spirit of fun, also giving her address—then, woman-like she spent the bill.

The money in its transmission as currency found its way to Dayton, O., and fell into the hands of Miss Edna C. Lindsey, of that city. She noted the name and address, and in a spirit of curiosity determined to discover the writer. She wrote C. E. Colby, telling that a bill evidently belonging to "him" had come into her possession, but received a reply saying that it was or had been at one time the property of Clara Colby, who much desired a further acquaintance. The course usually pursued by members of the opposite sex which results in a wedding was pursued.

An exchange of letters was followed by an interchange of photographs; Then, as usual, each fell in love with the other's picture, and, though both were women, it only seemed to intensify the remarkable attachment. Miss Colby asked her strangely found friend, Miss Lindsey, to "come East," arranging that each should know the other by wearing a red carnation. The invitation was accepted, and now Miss Lindsey is here. Each is charmed with the other's society, and they are inseparable companions.

### Casey Beat Hurst at His Own Game.

(Newspaper Enterprise Association.)

Tim Hurst, the diminutive bunch of nerves recently appointed to the National League staff by Harry Pulliam, has a reputation as a wit. It is not often players get the best of him in an argument for while he will fight when necessary he generally depends on his ready tongue to subdue the fractious ones. Jimmy Casey is about the only player who turned the tables on Tim at his own game. It was on the day Casey made his initial appearance in fast company and Hurst was officiating. The first ball pitched to Casey, Hurst called a strike. To Casey it looked high and wide. A moment later another strike was called. Casey turned to Hurst and said things about incompetent umpires. Tim cut in with: "Well, sonny, you're not in the cantaloupe league now and your supposed to hit them when they cut the plate."

"That's all right, mister," replied Casey quickly, "but the home plates aren't built with bay windows where I came from."

Seeing isn't believing when a man can't believe his own eyes.

## Edward Stine Shot Three Times By Nichols

### Who Then Turned Pistol on Himself--Cause of the Affair is Mysterious--Both Young Men Are From Somerset.

A sensational shooting occurred on the South side of the Public Square this afternoon, in which one man was probably fatally injured and another badly wounded.

Shortly after 1 o'clock Edward Stine, a young man aged about 19 years, and Warren Nichols, a young man of Somerset, O., chanced to meet near the stairway leading to the office of Attorney J. M. Swartz. Stine originally lived in Somerset, and came to Newark about a year ago, and has been working in the barber shop of Charles Walton since that time, learning the barber trade. They had been talking when suddenly Nichols, who has the reputation of being a cigarette fiend, pulled a 22-calibre revolver and placing it close to Stine's face shot three times, one of the balls taking effect over the left eye, and one in each side of the face.

Immediately after shooting Stine Nichols turned the gun on himself, shooting himself in the right and left sides. He then threw the gun away and started to run, going down the South Side to Second street, where he turned south. Here he was caught by several farmers. He was taken to the office of Dr. D. M. Smith, on East Main street, where it was found that the bullet which had entered the right side had come out, while the one entering the left side had followed the ribs around and the doctor was unable to locate it.

Drs. Dalton Miller and Bert Tracy assisted Dr. Smith.

After the wounds of Nichols had been dressed he walked with the officers to the county jail, where he is now resting comfortably, and it is not thought that his injuries will prove fatal.

Stine at first failed to realize that he had been shot, and asked one of those in the crowd what was the matter with him. He was assisted into the Smith drug store, at the corner of South Park place and South Second street, where Dr. Foster and Dr. Tracy attended to his injuries. The wound in the forehead is a very serious one, and the doctors are afraid that it will result fatally. He was taken to the city hospital in McGonagle's ambulance.

Nichols, when seen by an Advocate reporter, shortly after the shooting, refused absolutely to say anything about the affair.

The report circulated that the shooting was on account of a young woman named Zoia McMullen who is a cook at the Idlewilde Park hotel, is unfounded. An Advocate reporter called at the hotel Tuesday afternoon, and was informed that Miss McMullen had been confined to her bed for the past several days with sickness, and that she had not yet been informed of the shooting. The reporter, therefore, was unable to see her, but was informed that she had been keeping company with Stine for some time, and that he assisted about the hotel on Sundays. No one about the park seems to know anything about the Nichols man, and the theory that the trouble was on account of the McMullen woman, is believed to be without any foundation.

Nichols, who did the shooting is 24 years old and served in the Spanish-American war in the Philippines. He had been working at the Vendome Hotel in Columbus, but some time ago went to Zanesville, and came to Newark on Monday night.

At 3:15 p. m. Stine was still living at the hospital. The doctor at that hour did not expect him to recover.

## RELIANCE WINS.

(Continued from page 1)

board after crossing Reliance's wake. 11:45 a. m.—On starboard tack Shamrock is gaining slightly on the American.

12 noon—Shamrock is now doing better work than Reliance and is pointing higher.

1 10 p. m.—Haze is still thick off shore. The yachts have been invisible since 12 20 p. m., when they were about two miles from the first mark. It is estimated that the boats have rounded the first mark about 12:55. Reliance it is believed, is still leading.

Long Branch, N. J., Aug. 25—The observer here caught the yachts rounding the first mark as follows: Reliance 12:45:55; Shamrock 12:45:51. Deducting the time allowance, this, turn, it accurate, gives the Shamrock the lead.

Highlands, Aug. 25—The mist at sea so heavy that it is all but impossible to keep track of the yachts.

1 36 p. m.—A wireless message says Reliance turned the second mark at 12:59; Shamrock at 1:29 30.

2 01 p. m.—Mist is still thick off shore and the excursion fleet is gathering at the finish. One of the yachts is seen approaching the finishing line, about four miles from the finish. The accers are close hauled on port tack. The other racer was discovered at 2:05.

2 08 p. m.—The Reliance is leading by at least four minutes which will give her the race, unless something unforeseen happens.

Reliance wins. The time as taken from here is 2:15 25. Shamrock crossed the line 2:29 19.

On the corrected time Reliance wins the race by one minute and thirty seconds, unofficial.

#### NO BETTING TODAY.

New York, Aug. 25—Betting on the cup race this morning resembled nakes in Ireland. There was none. Six to one is offered on Reliance and 7 to 1 that Shamrock does not win a race.

#### Divorce Suit.

In the divorce case of Margaret E. Ginnin vs. Murt Ginnin, the defendant has filed his answer and cross petition.

**WHAT DOES IT MEAN?**  
In the platform adopted Tuesday by the Nebraska Republicans, the following paragraph appears:  
"We congratulate the state that we have made it manifest that there is no permanent place in American politics for a political leader who bases his claim for popular support upon the failures or disappointments of the people."  
If the people have made failures or are disappointed, there must be some reason for it and no better basis could be made for the claims of any American than a record of work to remedy the failures and disappointments of the people. The people should not be disappointed; the people should not fail; but under Republican administration they have failed in many of their greatest wishes and aspirations. They have been disappointed and there has been causes for their disappointment, and the man who bases his claim upon honest effort to undo their failures and amend the disappointments has a very commendable platform on which to stand.  
It certainly does not look like the postoffice investigation intends to make the department as 'clean as a hound's tooth,' when, right in the midst of the indignation over the scandals, corruption and fraud, this man Machen was permitted to establish \$6,000,000 worth or more rural routes of the same character as started the investigation. President Roosevelt has had a great responsibility upon him in loud profession of pushing this investigation of the looting of the treasury through the medium of the postoffice department, but as yet he has refrained from any strenuous steps in the investigation. "Turn the rascals out." That's what the people want.

**HONOR TO SUNDAY SCHOOL WORKERS.**  
There is one cheering feature of the New Holland, Ohio, case, where Cashier Brown looted a bank of nearly \$80,000.  
It has not yet been stated that Brown was a Sunday school superintendent.  
For years it has been a favorite "joke" of the funny writers that every bank defaulter was a church member or Sunday school teacher.  
In many cases this was true, but the fact furnishes no foundation for the absurd inference drawn by some that Sunday school officials, as a class, should be under suspicion.  
Hypocrites look for the best mask to conceal their evil designs, and the very fact that so many defaulters choose this particular way to shield themselves from suspicion evidences the real esteem in which the work and the workers are held by the general public.

The object of all these schools is to teach morality, to instill into the hearts of children a desire to be good, for the sake of others, and to make this world better. It is a fine work, into which the best men and women of the land have enlisted. When you

see some one sincerely take it up, you are justified in believing he is moved by a desire to improve conditions of everyday life.  
All honor to the Sunday school teachers! May their number increase!

An Advocate telegram yesterday from Roadville, Mass., brought the news that Lou Dillon, Millard Sanders driver, had trotted a mile in two minutes. The dapper little mare sped the third quarter in 30 1-4 seconds and the final dash was made in 29 seconds. It was a great event in track history.  
When Crescens trotted to his world's record of 2:02 3-4 at Columbus, O., on August 2, 1901, man thought the record would stand for years, if not forever. Some of the overwise ones even figured it out from a structural and scientific standpoint that no trotter could trot 44 feet per second for a period of two minutes. Yet Lou Dillon did it, and at the end had something to spare.

## Snail's Pace Suits Trolley Crews.

(Advocate Special)  
Hubbard, O., Aug. 25—Because Mayor Stephens and Solicitor Boyle pointed out the fines of the 10-mile-an-hour trolley speed ordinance and enforced it, the cars now creep through the city at a snail's pace. To be sure, there are no violations. Even the farmers' horses are not annoyed by the approach of the cars.  
The conductors and motormen declare they will run no risk and fare as did Andy Goff and Frank Oliver, one car's crew, who were arrested. The councilmen and company officials are to meet to decide upon a new ordinance.

**BURGLAR**  
GOT \$85 FROM N. S. REDMAN'S RESIDENCE  
But He Overlooked \$30 in Pantaloon's Thrown Upon the Floor—No Clue as Yet.

A bold robbery was committed about 10 o'clock Tuesday morning. Mr. N. S. Redman, a brother of Mr. Smith L. Redman, was the victim. Mr. Redman had been absent for some days from the city, and returned to his home, 63 Harrison street, on Monday evening. Tuesday morning he gave his wife \$85, which she placed in a bureau drawer, Mr. Redman keeping about \$30, which he left in his best clothes.  
About 10 o'clock Tuesday morning Mrs. Redman had occasion to leave the house for a few minutes, and when she returned she discovered that some one had entered the house during her brief absence, and had stolen the \$85 that was in the bureau, and that the house had also been completely ransacked. Mr. Redman's pantaloon's, containing the \$30 had been thrown upon the floor, but the money had not been taken. The police are hard at work endeavoring to ferret out the guilty party, but thus far there is no clew.

## GOVERNOR

And Gen. Dick Spent Monday Night at Attorney Carl Norpell's Cabin, South of Town.

Gov. Geo. K. Nash and Gen. Charles Dick, at the close of the division encampment Monday, went with Messrs. Carl Norpell and Harry J. Hoover to Mr. Norpell's delightful summer home, "Willow Wood," where they remained until morning. Mr. Norpell has a log cabin built almost upon the summit of a hill at his farm southwest of Newark and the cabin is as comfortably and conveniently fitted up as the majority of city homes. The house is delightfully located. From the spacious front porch one may see the college buildings at Granville, seven miles distant. At the foot of the hill the South Fork of the Licking flows, and a short distance away the Columbus, Buckeye Lake and Newark electric cars may be seen, affording a pretty sight at night. The Norpell farm just across the creek is stocked with the best that grows from peaches and melons to corn and hay.

Messrs. Norpell and Hoover are special friends of both the Governor and General Dick. Gov. Nash appointed Mr. Hoover on the Gallipolis hospital Board of Trustees and named Mr. Norpell as trustee of the State Deaf and Dumb Institution at Columbus. Mr. Norpell is chairman of the Board of Trustees.

In conversation about the encampment Gov. Nash said:

"There has been a steady improvement in the National Guard within the past four years. The men are better trained now than they have ever been. They are mostly workers and that is just what we want, for we don't get any service out of drones. But the point is this. After work the laboring men feel too tired to drill and it is hard to get them out even once in two weeks. Of course it would be just as hard to get them out oftener. The only remedy seems to be in selecting officers of the line, whom the men like and who can persuade them to drill. Of course they are civilians and not regulars and accordingly can not be compelled."

"Do you think the next general assembly will make an appropriation to purchase additional land to be used as parade and drill grounds next year?" was a query put to the Governor.

"No, I do not think that will be done," replied the commander in chief. "It would cost too much. Last year we rented 200 acres which we have used for drill grounds at a cost of less than \$1000. This may be done this year, for the farmers may then plant their crops so that the land can be cleared by encampment time."

The guests at the Norpell cabin were Gov. Nash, Gen. and Mrs. Charles Dick, Mr. and Mrs. H. J. Hoover, Miss Rhoads, Mrs. J. M. Ickes and Captain and Mrs. Frank G. Warden.

Norris is as healthy as could be expected and his great age is a shock to the Anti-cigarette leaguers.

### This is the Way the Plan Works.

We will loan one of these Private Savings Banks to anyone who will start an account with One Dollar or more: Remember: The bank is absolutely free to all and you have the use of it as long as you may have an account with our institution. In having one of these private home safes, you have a branch of our bank in your home, and it being near you, you would deposit small amounts which you would not bring to the parent bank. It is a fireproof box with a slot in the top large enough to admit any size coin or paper money and we hold the key. Whenever you return this bank, tomorrow or any other time, you can have your dollar back. There is no chance to lose, but a great deal to gain. Your signature is required on a card which is filed away to identify you when you wish to draw your account. You can bring the bank to us at any time and we will open it in your presence, enter its contents to your credit on your pass book, return the safe to you locked, and you begin over again.

There are few people who know the power of small, steady savings, aided by a liberal interest, nor will you know, until you have tried it. There are over 4,000,000 of these banks in use in all parts of the United States and have been the means of starting many fortunes. A home is not complete without one and it costs you nothing. Deposit a dollar for each of your children and teach them to save. Don't put it off but start now. Call at the LICKING COUNTY BANK and get one or send a postal card and our representative will call on you.

## HEADS

OF BALKAN MERCHANTS PUT UP  
ON POLES

By Sultan's Troops—Turks Slay Children and Women—Acts of Great Cruelty.

Sofia, Aug. 25.—With the rumors of massacres and the murder of prisoners in Monastir now authenticated the general situation is considered here as fast becoming intolerable. Official and diplomatic circles alike are concerned, having every reason to fear that only a part of the horrors enacted in the interior of Macedonia have come to light as yet.

The revolutionary committee are doing their utmost to force the hands of the Bulgarian government, and the immediate outlook is exceedingly serious. It appears that the Turks have obtained the upper hand in the vilayet of Monastir, and the insurgents are planning to remove the center of their activity close to the Bulgarian frontier. Dispatches arriving from the disturbed area are exceedingly gloomy. From Adrianople comes the news of a Turkish defeat and the extension of the revolutionary outbreak, from Monastir, the news of Turkish victories, accompanied by barbaric excesses.

While many of the reports remain without confirmation, sufficient authentic details are forthcoming to cause the authorities the gravest anxiety. According to the Sofia Dnevnik the Turks committed unspeakable atrocities at Krushevo.

The mutilated corpses of 90 women and children were found in one building; pieces of the bodies had been thrown into the street. Fifteen of the principal merchants of the town were killed and their heads exhibited on poles. The churches were demolished, the houses sacked and the town is now a heap of ashes. The populace fled to the hills, where they are in a starving condition.

The Dnevnik also asserts that a general massacre has taken place in the whole vilayet of Monastir. Nearly all the villages have been destroyed. The treacherous murder of 30 insurgent prisoners by their guards near Monastir has made an especially bad impression here.

Many rumors are current of massacres in the city of Adrianople, but confirmation is lacking. The situation there, however, undoubtedly is serious. The population is afraid to leave the houses. The prisons are full and the walls have taken private houses to be used as jails. When the Russian consul protested at the situation the Valt is reported to have answered that he was powerless against the fanatical population.

Anarchy exists at Lozengrad. Fighting is proceeding everywhere in the neighborhood. Insurgent bands have occupied the strategic points around Malkotervevo. Eight villages to the north of Lozengrad have been burned by Baschi Bazouks, while the insurgents attacked two Turkish posts in the vicinity of the same town and killed the entire garrisons, consisting of 60 soldiers and one officer. At Almogic 60 insurgents engaged in fighting with 300 Baschi Bazouks. The result is not known.

The town of Bunar Hissar has been burned and a part of the Bulgarian population was massacred. The rest of the Bulgarians fled to the mountains.

At Burgas Majura, after 18 hours of fighting, the garrison was killed by rebels, who also destroyed the garrisons of Slikhor and Kalovo. At Karanovo the insurgents killed 57 Turks, while 15 Turks were killed at Kurkolio, in the vilayet of Uskub. New outbreaks are reported from the vicinity of Kresna, where serious fighting has occurred.

The Macedonian organization in Sofia and throughout Bulgaria are busily planning to help their brethren across the border. It is said that the rival committees have buried their differences and are now working in harmony, confident that the rich Bulgarians, who have hitherto withheld their contributions, on account of the committees' dissensions, will now give liberally.

The Macedonian leaders admit that the insurrection in the vilayet of Monastir is practically at an end, and they appear to pin their hopes on the transfer of active operations to the territory near the Bulgarian frontier. Within three weeks they assert, Eastern Macedonia will be in full revolt, and then the Bulgarian government will be forced to take action.

**Wink the Wizard.**

ENGLAND GIVES LAND  
TO THE HEBREWS.

London, Aug. 25.—The English Hebrews are deeply interested in the announcement made by Dr. Theodore Herzl, president of the Sixth Zionist congress, in session at Basel, Switzerland, that Great Britain, in view of the collapse of the project to establish the Hebrews on the Sinai peninsula, had offered the Zionists a large tract of territory in East Africa for colonization by the Hebrews, who would be given an autonomous government under British suzerainty.

While some opposition is expected, they believe that the congress will accept the proposal on. It is pointed out that there is a great difference between the acquisition of Palestine for the establishment of a Hebrew state, as originally contemplated by the Zionists, and the proposal of the British government, which simply contemplates the establishment of a Hebrew colony in a section of the British empire needing development.

When in London Dr. Herzl called at the foreign office and talked with officials there in regard to the British attitude regarding the Sinai peninsula, but Great Britain was not willing to do more than make the proposal announced by Dr. Herzl.

Lord Rothschilds said to a representative of the Associated Press:

"Fearing Hebrew immigration from the British isles, the government has offered a tract of land in East Africa to Hebrews emigrating there. They will have only the rights and privileges of British subjects, the same as their brethren enjoy here and elsewhere in the empire. They will be under British rule the same as they would be under American rule if they were located within American territory. In other words, they will simply be colonists. I do not know whether the proposition will be accepted."

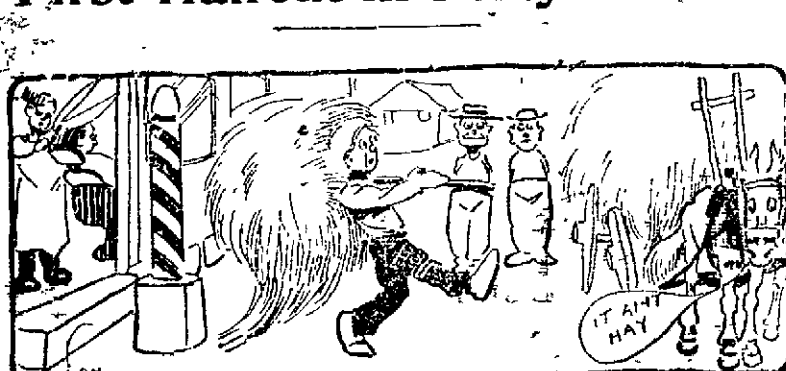

As Dr. Herzl did not disclose the proposal before its announcement to the congress at Basel, the Hebrews here are not aware of its exact terms, but the majority of the Hebrews in England are said to oppose its acceptance.

Israel Zangwill and Sir Francis Montefiore, who are at Basel, will, it is believed, uphold the proposal.

The editor of a Hebrew newspaper said: "In any event, a reube is not desired on the Hebrews of England or America but for those of Russian, Roumania or any state, whose condition can only be improved by immigration."

The editor reiterated that the idea of acquiring Palestine had not been abandoned, even in view of the British proposal being accepted.

## First Haircut in Forty Years.

(Advocate Special.)

Bowling Green, O., Aug. 25.—For the first time in 40 years Lucius Holdover, a reclusive residing in Bloom township, had his hair cut recently. He came to the city and Manager Wm. Smith of the T. B. G. & S traction company, offered to pay for a haircut if he would submit to it. After much persuasion he consented, and a barber soon separated him from his long and shaggy locks. His appearance on the streets, with hair falling below his shoulders, attracted much attention, and a curious crowd was attracted to the shop to witness the operation.

WERE POCKETBOOKS FOUND BY MR. PRIEST.

Thieves in the Big Crowd Sunday Had Taken Out All the Cash, Throwing Purses Away.

A reminder of the pickpockets who infested Newark on Sunday turned up Tuesday morning. Mr. A. E. Priest, of Murphy's grocery, on West Main street, was engaged in sweeping out the store when he turned over a piece of newspaper, covered by a brick, which was lying in the back yard, exposing to view a pocket book. Mr. Priest opened the book, and was about to throw it away when he thought he would investigate further. He did so and found 3 other pocketbooks. One of the books was identified as that belonging to Mr. W. A. Lovett. Another one contained the card of W. H. Hawkins, the well known railroad conductor while in the others there was nothing to identify the owners.

## CHICAGO STRIKE

Chicago, Aug. 25.—Unless the cooks and waiters and other restaurant help on strike get the assistance of the steam power council to day, their attempted tie up of 200 restaurants and lunchrooms will fail. This was admitted by the strike leaders this morning. But a small portion of the employees of the restaurants have obeyed the order for a strike. Only two places have been forced temporarily to suspend business and non-union help is being obtained for both.

Daily arrivals of waiters and cooks from summer resorts enable the employers to fill the places of the strikers almost as rapidly as they become vacant.

At a meeting of the steam power council, an appeal of the strikers for aid will be acted on soon. After the council decides upon a sympathetic strike by elevator men, engineers, coal teamsters and others whose services are necessary for the production of power and operation of machinery, the restaurants will be confronted with a serious fight otherwise they confidently predict that the waiters' strike will die of inanition within a week.

### LITERARY NOTES

#### CANTERBURY TALES.

For five centuries Chaucer's pilgrims have been a fascinating group. But it is safe to say that nine out of every ten readers of The Canterbury Tales have only the vaguest notion of the actual route followed by the pilgrims from London's old Tabard Inn to Canterbury, nearly sixty miles away. Mr. T. B. Browning, however, has made it very plain by an article published in the September number of The Booklovers Magazine, in which he traces the pilgrim-course by map, with frequent pictures by the way.

#### A WINGED HIGHWAYMAN.

We naturally wonder why a wasp cannot successfully defend itself against a fly. But, in addition to its sword-like proboscis, the robber-fly is also endowed with legs of unusual length and power. It is thus enabled to hold its victim at such a distance that the venomous sting cannot be used. Powerful and swift as its wings are, it seldom seizes its stinging victims in mid-air, but usually hurls itself on the back of the unsuspecting wasp. Caterpillars, spiders, moths, beetles, dragon flies, and even plant bugs are all seized and dispatched by this swift assassin. From Nature and Science in the September St. Nicholas

#### SPAIN BROUGHT US HORSES.

The Spaniards were the first to bring horses to this continent, though the paleontologists tell us that the rocks abound with fossils which show that Equidae were numerous all over America in the Eocene period. It is a singular fact, however, that there were no horses in America when the first Europeans came hither. From John Gilmer Speed's "The Horse in America" in the September Century.

#### THE DISCOVERY OF RADIUM.

The first suggestion toward the discovery of radium came when a western college professor demonstrated the fact that many common substances have the power of storing up sunlight and emitting it again at night. Common sugar is the most luminous of these substances. Not only does the sugar emit light at night, but the discoverer was able to take photographs by means of it in an otherwise perfectly dark room. Among the substances tried with the sugar was Uranium, an ore, which, as Becquerel discovered, does not need sunlight to enable it to give off radiations, but which emits them spontaneously all the time, night and day. Following the lead of Becquerel, Mme. and M. Curie made an exhaustive examination of pitchblende which was radioactive. It was a task of endless separation, of continual dividings, of constant assayings, until at last nothing was left but the salt that is now known as radium salt—Everybody's Magazine.

#### ASBESTOS MATS.

The common custom of using rush mats under hot dishes as a protection to the polished wood does not appeal to a housewife as giving an air of daintiness to a prettily set dining table, and we suggest a pretty idea for table mats. Cut a round or oblong piece of linen the size desired and embroider with sprays of flowers or a conventional design, then cut two pieces half as large for the under side. Place the two straight edges together, which should be on the selvedge at the middle across the center. When placed in this manner, they are the size of the upper piece and both should be basted together and a scallop worked around the edge through the top and under side. Now you have a mat with an opening in the center, into which you can slip a piece of asbestos cut the shape of the linen, only a trifle smaller. When the mat needs laundering, slip out the asbestos and launder same as dometes. —The Pilgrim for September.

#### The Death Penalty.

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It's the best salve on earth and will prevent fatality, when Burns, Sores, Ulcers and Piles threaten. Only 25c, at Frank D. Hall's drug store.

### FORTUNE

Amassed by This Man Who Dies in Poverty—Walter Craig Dies Near Cadiz, Ohio.

Cadiz, O., Aug. 25—Walter Craig, who was a few years ago worth nearly half a million dollars and who owned and presided over the best farm in the county, died Monday in a little tumble-down cabin, the home of a former housekeeper.

Mr. Craig had lost everything. Fast horses, building a fair ground, taking a herd of horses to Mexico, and speculating in Western mining stock exhausted his fortune.

At one time he owned a farm that covered a township 10 miles square, and built one of the largest barns in the state of Nebraska. The city of Omaha, in that state, was named for him.

He was 85 years of age and outlived three wives.

## SCIENTISTS HAVE SPECIMEN CHOCK FULL OF LAZY GERMS.

(Advocate Special.)

St. Louis, Mo., Aug. 25—Surgeons at the city hospital are trying to find the "lazy germ" in Wm. Kildair. William certainly is full of them. William came to the hospital three months ago and said he was too tired to live. The doctors chumped him, fed him, turned on the X-rays and found nothing the matter. When given some medicine, he refused to lift it to his

lips and made the nurse do it. He slept nearly all the time.

One day he was ordered to help the engineer. His reputation had preceded him, so he was told to hold a candle while the engineer cleaned out the ash pit.

Kildair went to sleep, dropped the candle on the engineer's neck and that individual promptly kicked his tired assistant into the street.

Kildair came back last week. In the meantime, the discovery of an eastern scientist that a lazy germ really existed had reached St. Louis. So the surgeons promptly fell on Kildair's neck, escorted him to observation ward where he is fed and pampered like a turkey before Thanksgiving.

"If there's such a thing as a laziness germ, we'll get a million out of that fellow," said Dr. Doyle.

Meanwhile, Kildair is having the most delightful time of his life. He is known to the other patients as "The Laziest Man in the World."

## Police to Watch Sweethearts.

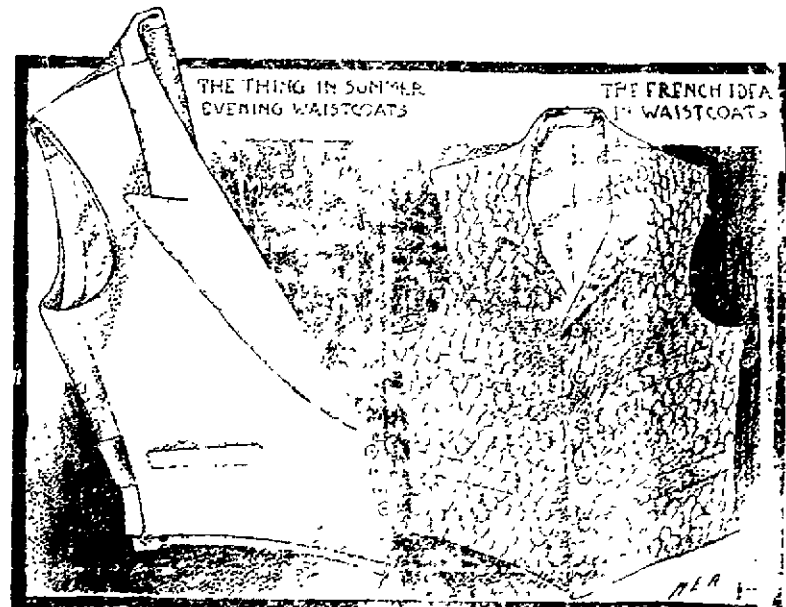

(Advocate Special.)

Riverside, Mass., Aug. 25—In this Boston suburb, the turtledoves are fluttering their wings in dismay. A police edict forbids spooning on the Charles river, and woe fills the breast of every Jack and his Jill.

Concoing is the favorite sport of the young people and for months, stalwart youths and handsome maidens have lounged poetically in the dainty cleft, side by side holding hands and making goo-goo eyes.

It was nothing unusual to see 500 canoes on the river in the early evening hours, each with its quota of two passengers, oblivious to the surroundings.

## WAISTCOATS FOR AFTERNOON AND EVENING.

(Advocate Special.)

New York, Aug. 25—The puzzle as to the style of waistcoat to wear in summer with the evening jacket (tuxedo) has been answered. The solution is seen, about town, in a single breasted garment, with four buttons. It has the broad English lapels. The material is preferably white, though more or less is seen of the gray shades.

Below the buttons the vest is abruptly cut away, forming a peaked effect.

Again we are turning round to the French idea in waistcoats. Many of them will be worn as the weather grows cooler. One seen recently was a duck, closing with six buttons. The lapels are small and the front straight, the lowest closing ending without the usual cutaway.

## TAFT

WILL SURELY SUCCEED ROOT AS SECRETARY.

A Dispatch from Oyster Bay Says that the Philippine Governor is Choice of Roosevelt.

Oyster Bay, N. Y., Aug. 25—(Bulletin)—Secretary of War Elihu Root is to leave his office in January and Judge William H. Taft, governor general of the Philippines, is to be his successor. This announcement was officially made at Sagamore Hill today.

New York, Aug. 25—A special from Oyster Bay to the Herald is as follows:

It can be announced as definitely settled that former Judge William H. Taft Governor of the Philippines, will be Secretary of War, to succeed Mr. Root. All talk of others for that place comes from persons not well informed or from others who would like to see their friends in the cabinet.

The strongest movement for any one man was that for Colonel John J. McCook, of New York. Colonel McCook had the support of Senator Platt, of New York, as well as of a large number of firms and influential business

WILLIAM H. TAFT.

men and financiers. He was also urged by the Grand Army of the Republic and several veterans' associations.

The President decided that Governor Taft was the man of all others that he needed as the successor of Secretary Root. He has been in correspondence with Governor Taft, and the latter will accept.

It is understood that Governor Taft is in training for the Presidency in 1908. The talk of Myron T. Herrick, the Republican candidate for Governor of Ohio, being a candidate for President, is said by persons who know something of Senator Hanna's plans to be idle, and Senator Hanna designs to put Mr. Herrick forward as the candidate for Vice President if he gets the majority for governor this fall that he expects.

Prospects of an extra session of Congress in October are rapidly fading. It is believed here that the President will return to his original plan and call the extra session for November.

### ANSWER IT HONESTLY

Are the Statements of Newark Citizens More Reliable than Those of Utter Strangers?

This is the vital question. It is fraught with interest to Newark.

It permits of only one answer. It cannot be evaded or ignored.

A Newark citizen speaks here. A citizen's statement is reliable. An utter stranger's doubtful.

Home proof is the best proof. C. W. Manville, 257 West Main St., says—"The grippe left my kidneys in bad condition. They did not act properly. At the same time I suffered terribly with pain in my back just over the kidneys. I just about gave up trying anything in the hope of getting better, when with the natural desire to test a well-recommended remedy, I started using Doan's Kidney Pills, sold at Crayton's drug store. The results were decided and lasting."

## Latest Fashion Notes.

### A Beautiful Bodice of Peau de Soie.

Peau de soie was the material of which this pretty little waist was made. It is stitched over cords on both the sleeves and the waist. The heavy lace collar extends well over the shoulders and appears on both the front and back. There is also a narrow strip of lace down the front reaching to the belt. The collar and belt are outlined with bands of peau de soie, stitched through the middle with Corticelli stitching silk.

Small girls generally wear their skirts quite short, reaching usually to the knees and made very full. The waists are variously trimmed, hem stitching, leather stitching, lace fronts and lace undersleeves being favorite methods of adorning these small garments. Almost all materials are considered suitable for little girls, from muslin to silk, but nothing can be prettier or more simple when they cannot wear wash materials, than the soft wool frocks. Young girls always are delighted with a coat and skirt to match and fashion decrees that they may wear them this year. The skirts are short, made with narrow tucks around the belt and sometimes a dounce, while the jackets often have two or three capes giving them a very smart appearance.

MISSING INSPECTOR.

Milton Smiley Has Been in Newark for Nearly Two Weeks--Registered at Hotel Under Name Of His Son-in-Law, M. Davis.

Milton Smiley, the immigrant inspector, who mysteriously disappeared a short time ago, was located in Newark Monday afternoon and was restored to his anxious family.

Early this month Mr. Smiley left Cincinnati with two foreigners whom he took to New York to deport. At that time, he knew his daughter, Mrs. Nannie Smiley Davis, was critically ill at her home in Columbus, but he felt sure that he could attend to his business and return to Columbus before the end came. Having concluded his business in the metropolis, Mr. Smiley started home, and while riding through eastern Ohio en route to Columbus, he read an account of his daughter's death in a Washington newspaper.

The news so shocked him that he felt that he could not possibly go home and enter the house where his daughter had died. Instead of going on he stopped in Newark and went to the Bolton House where he registered under the name "M. Davis," that of his son in law, on August 12, and he remained there until August 24.

On Monday a former neighbor of Mr. Smiley read in one of the Columbus papers a statement that Mr. Smiley was probably in Newark. He concluded to locate him if possible. Going to the hotels he made inquiry for Mr. Smiley, but was told that no such man had been registered. Visiting the

Bolton House the man scanned the register, beginning with August 10, and under the date of August 12, he found the name "M. Davis," written in Mr. Smiley's characteristic style. He recognized it at once as the signature of the missing immigrant inspector. Being shown to "M. Davis'" room he was brought face to face with Mr. Smiley.

The inspector, whose disappearance has caused such anxiety among his friends for some time, said:

"When I got through with my affairs in New York, I hurried to a train and started for home realizing that my daughter was very sick. On the way I read a notice of her death and the shock was so great that I felt that I could not return home. I concluded to stop in Newark and hide myself from the world for a while. I used my son-in-law's name in registering and have been here since August 12."

Mr. Smiley was still unwilling to leave but when his son-in-law, Mr. Davis, was called from Dublin, O., by telephone, he finally consented to accompany him to Columbus on the Buckeye Lake trolley line.

It is said that on one previous occasion Mr. Smiley disappeared in Tennessee and it was some time before he was located.

When he left Newark Mr. Smiley said that he intended to go to Chicago before returning to Cincinnati.

ANNUAL OUTING OF KNIGHTS OF COLUMBUS.

Crowd Goes to Buckeye Lake for Program of Sports and Dancing--Fine Supper This Evening.

Tuesday was a big day with the members of Newark Council, Knights of Columbus. It is the occasion of their first annual outing, and about 400 persons, including the Knights and their families, went out to Buckeye Lake in the afternoon, two special cars leaving at 1 o'clock, and other later in the day. At the Park a program of exercises consisting of a ball game between the married and single men of the Council, three legged race, ladies' nail driving contest, etc., was carried out. In the evening there will be dancing in the pavilion from 7 to 10 o'clock, and a big supper prepared by Joseph Kuster will be served free of cost to the Knights and their families. Quite a number of Knights from Columbus and Zanesville are in attendance.

ACCIDENT

ON NEWARK & GRANVILLE ROAD NOT SERIOUS.

Freight Car Crashed Against Electric Motor Doing Some Damage--Hurts Were Slight.

The accident on the Newark & Granville electric line on Monday afternoon was not as serious as at first reported. A motor was pushing a T. & O. C. loaded box car, in from the camp grounds to Showman's, the Granville car having gone ahead. The latter car stopped to pick up a passenger and before the motor could be stopped the box car crashed into the rear end of the car, carrying 15 passengers to Granville.

Luckily the box car was not moving at a high rate of speed, and only two of the passengers were hurt, both of them sustaining cuts by broken glass. Two or three others were slightly bruised.

The motor behind the freight car was crowded with soldiers, but none of them were injured. The vestibule of the Granville car was demolished.

MOST ANYTHING

It is said that there were more strangers in Newark Sunday than at any time in years. The big military encampment was the magnet.

The soldiers' camp ended just in time. As soon as the boys left the mercury jumped 15 degrees.

Oh, yes, I know. But Curver didn't go to the well."

"You must either pay a fine of \$10 and costs or go to the workhouse for 30 days," declared the judge.

"Once again time is money," observed the prisoner.

Narragansett Pier society folk intend to give a "baby party" at which the young men and women will wear baby clothes. That's about as near as those eastern society folk can come to the real thing.
